

REMARKS

Applicants thank the Examiner for allowing claims 1-8. Claims 9, 10 and 14-21 have been objected to due to informalities. Appropriate corrections have been made. No new matter has been added.

Applicants also thank the Examiner for the courtesy extended to applicants' representative during a telephone interview on April 26, 2007. The interview focused on a proposed amendment to claim 9 that would overcome the outstanding objection. Accordingly, claim 9 has been amended. Support for the amendment can be found, for example, on page 6 of the specification. No new matter has been added.

In view of the above, each of the claims in this application is in immediate condition for allowance. Accordingly, applicants solicit early action in the form of a Notice of Allowance.

In the event that the transmittal letter is separated from this document and the Patent and Trademark Office determines that an extension and/or other relief is required, applicants petition for any required relief including extensions of time and authorizes the Commissioner to charge the cost of such petitions and/or other fees due in connection with the filing of this document to **Deposit Account No. 03-1952** referencing Docket No. **449122008800**.

Respectfully submitted,
